Non Asbestos

Style K3222

Material:

Manufactured using expanded pure graphite ribbon yarns with non metallic reinforcement

Application:

K3222 is a cost effective general purpose packing for use in non abrasive applications on pumps and valves within all industries

Do not use with Chromium Trioxide, nitric acid and sulphuric acid.

Typical applications

Vacuum pumps, Boiler feed pumps, General service pumps, Cooling water pumps, LP and MP steam valves

Service Capabilities

Operating Temperature	-200 to 430 °C
In saturated steam	to 650 °C

pH capability	0 – 14
---------------	--------

Max rotary Pressure	20 bar
---------------------	--------

Max static Pressure	100 bar
For use up to 280 bar consult Klinger.	

Max rotary Speed	20 m/sec
------------------	----------

Note: The packing should not be subjected to the maximums of temperature, pressure and speed simultaneously.
